Alchemy fine china Product Benefits

HIGH TEMPERATURE FIRING
Alchemy is a vitreous china body that does not absorb moisture, is more hygienic and has better heat retention properties. Its high resistance to thermal shock helps to reduce instances of breakages.

DURABILITY AND STRENGTH
High glaze resistance prolongs the life of the glaze (BS 4034) and a reinforced 'rolled edge' increases chip resistance. The high percentage of Alumina added to the raw materials gives Alchemy maximum strength.

CATRA TESTED MARK RESISTANT GLAZE
Catra approved scratch and metal mark resistant glaze. Awarded to Churchill by the Technology Centre for the World's Cutlery Industries.

FULLY GLAZED FOOT
A fully glazed foot on all flatware helps to reduce scratching and metal marking.

STACKABILITY
Wherever possible the ability to stack safely has been designed into the product ensuring the best utilisation of space.

DISHWASHER SAFE
All products have been developed to withstand the rigours of industrial dishwashing (excluding metallised decoration).

MICROWAVE SAFE
All products are microwave safe (excluding metallised decoration).

SAFETY
All decorations and glazes comply with the British Standard BS 6748, on metal and lead release.

EDGE CHIP WARRANTY
5 year edge chip guarantee - selected lines only.

EXCEPTIONAL CUSTOMER SERVICE
Qualified advice and reliability of supplies backed by ex-stock availability.

QUALITY
Alchemy meets the quality standard for food service tableware laid down by the British standards institute, BS 4034 and is manufactured under the internationally recognised ISO 9001 quality management system.

BADGING SERVICE
We offer a full badging facility, whether you require personalised logos or simple banding. Individual designs can be created to your specific requirements to give you a unique look.

Alchemy fine crystal Product Benefits

RIMS
Fine, smooth, laser cut rims are comfortable on the lips and ensure the wine flows easily into the pallet, adding to the pleasure and enjoyment of the taste.

BOWL
The taste, smell and balance of wines are affected by the shape of the bowl from which they are drunk. Each Alchemy crystal wine glass is designed specifically to complement popular wine varieties.

STABILITY
Finely balanced stems and bases provide greater stability making Alchemy crystal high performance glasses.

DURABILITY
Highest levels of machine made technology precede the excellent hardness, mechanical durability and breaking strength of Alchemy fine crystal glassware.

DISHWASHER SAFE
Dishwashing resistance is excellent and is independently verified by Siftung Warentest LGA certification.

TRANSPARENCY
Alchemy Fine Crystal provides superb brilliance and perfect clarity, allowing the colour of the wine to show through.

ALCHEMY® fine china

ambience

Introducing Ambience, a stylish and elegant range of finer, lighter Alchemy plates, bowls and beverage pieces. Designed to evolve and complement the existing Alchemy range to create the ultimate fine dining experience.

Every plate has an ultra low profile, with a defined well and raised inner rim to frame food and enhance the use of sauces, perfectly finishing each dish. The selection of three different rim sizes offers exceptional food presentation versatility.

Tall, contoured, elliptical beverage pieces radiate elegance, stylishly complementing this beautiful collection. Especially designed for fine dining, creating the perfect ambience.

white

Offering a contemporary twist on a classic look, Alchemy White has been designed with both innovation and functionality in mind and offers exceptional flexibility and value. Its comprehensive item range includes key shapes and sizes and multi-functional items for correct portion control, delivering both cost benefits

and greater opportunities for creative expression through different serving combinations. Undeniably appealing, this pure white fine china is designed with practicality and durability in mind. A neat rolled edge gives excellent chip-resistance, whilst a unique glazed foot helps protect surfaces against scratching and metal marking and has the additional

benefit of being more hygienic than a traditional unglazed foot. Space and storage is always at a premium in busy kitchens, therefore many of the items in the range have been designed to stack where appropriate.

Sebastian Conran
Creative Director
Product and Graphics
Conran & Partners

“The primary objective was to design a range of contemporary cook & serve ceramics for professional chefs in restaurants. We worked closely with some of the best chefs in Conran Restaurants, listening carefully to their needs, wants and frustrations, to create a really innovative and rational range that met their exacting standards both in function and presentation. We dispensed with many traditional approaches, and created new ones fit for contemporary food and environments”.

A L C H E M Y[®] fine china

cook & serve

Designed by Sebastian Conran

Designed by leading British designer Sebastian Conran, the clean, simple lines and shapes of Alchemy Cook and Serve represent a striking and contemporary alternative to traditional cookware. Designed to bring state-of-the-art style to any kitchen or restaurant environment, its eight piece

multi-purpose item range, with key sizes of ramekins, oval and round dishes offers great flexibility of use and presentation. At the same time, the thoughtful, space-saving design reflects the rigours of the demanding ‘cook and serve’ environment.

One handle on all dishes creates more room in the ovens, whilst a highly polished biscuit base allows items to be put in and out of ovens with ease. All items are stackable and with no unnecessary embossment or ribbing, they are easier to handle and clean.

jardin

A pure white canvas graced by a subtly embossed border that echoes the elegant arches of conservatory windows. Jardin is a classic design with a timeless appeal that brings a sophisticated ambience to the dining experience, whether it be for a conservatory restaurant or prestigious hotel banqueting.

It offers impressive added value through its full border embossed design, the subtlety of which does not detract from the main hero; the food. Low relief embossment facilitates cleaning and allows for easy decoration of pieces, with a badge or band.

An extensive range of 35 items including flatware and holloware, offers great flexibility for use at the table. All items feature a chip resistant rolled edge and glazed foot, and matching flatware and holloware profiles permit interstacking with Alchemy White.

"The simplicity of the design allows us to have a greater flexibility with the food presentation for all our Asian and Contemporary Dining Restaurants".

ALCHEMY® fine china

batik

The ultimate in refinement and luxury, Batik is a very stylish pattern in a design and colours that are closely linked to interior décor trends in leading hotels and restaurants. An enchanting hand painted style leaf motif in rich red and

burnt orange is poised delicately on the rim of the plate, contrasting with the rich red full border of the service plate - a beguilingly simple design concept that allows the food to be the

main focus. A comprehensive range of 48 items are offered, including Energy and Balance shapes. The pattern also works well with Alchemy White.

ALCHEMY® fine china

bands

Understated elegance is the charm of Mono, with a minimalist black line making a striking contrast to the white body of Alchemy fine china, creating a modern and contemporary feel. Available in a comprehensive range of 25 items, to work across the whole menu – see Alchemy price list for full details.

Platinum and Gold edge line is available to order on the entire Alchemy White range, adding an extra dash of luxury and styling for use in appropriate settings. All three ranges can be easily mixed and matched with Alchemy white to create distinctive table settings.

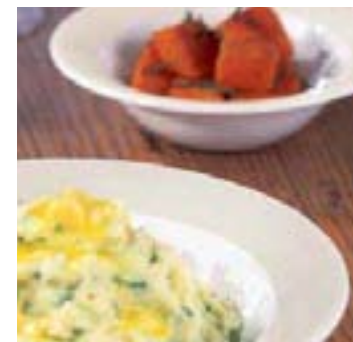

Please note that only Mono can be used safely in dishwashers and microwaves. All items are stackable and feature a rolled edge for durability and a glazed foot to protect surfaces against scratching.

ALCHEMY® fine china

essence

Featuring a full border design interpretation in a very subtle cream colourway with a beautiful crackle finish that follows the rim of the plate, Essence is an elegant and sophisticated pattern.

The crackle effect of Essence complements all types of modern and traditional interior environments. The subtlety of the design works well with food presentation, offering limitless opportunities for creative interpretation.

Available in a comprehensive range of 32 items, the pattern can be easily mixed with any of the existing Alchemy ranges to provide cost-effective flexibility of presentation to suit all types of dining styles and occasions.
