

Lookbook Spring/Summer 2025

chilewich®

The Spring/Summer collection weaves together nuance and novelty. Multifaceted textures are balanced by clean lines. Classic patterns are reimagined on the loom at bold new scales. Neutral hues are enlivened by unexpected color, deliberate in its distinction.

All products are made in the USA and suitable for indoor and outdoor use.

Dune

DUNE, Canvas

Shifting sands. Tonal hues and softened angles bring a calming character to Dune, named for its resemblance to lines etched in sand. Our design team combined multiple weave structures to achieve an especially tactile surface, with meandering stripes of varying heights.

CANVAS

RAISIN

DUNE, Canvas

One of a kind. Dune was developed to have a large repeat. This not only enhances the continuity and organic character of the weave but also makes each placemat unique.

Fable

FABLE, Sorbet

The plot thickens. Rich texture comes to the fore in Fable, in which staggered densities and multi-tonal colors create multifaceted stripes. This dynamic design resembles the handmade textiles created by collecting the “selvedge” of Chilewich fabric from our factory floor and weaving the ribbon-like strips into one-of-a-kind pieces.

COAST

Parade

Soft power. Revealing the power of finely calibrated color, Parade is both an artful ombré and a boldly scaled plaid. Our design team developed it by translating an illustrated pattern into a hand-painted weave draft and ultimately bringing the progression of line and color to life on the loom.

OCEAN

PARADE, Ocean

Made to last. Placemats and runners are ultrasonically sealed along the edges to prevent fraying.

NEW COLOR

Basketweave

BASKETWEAVE, Coast

A modern classic. One of the oldest and simplest of weaving constructions, Basketweave is a Chilewich signature. This four-over-four weave allows us to express our unique point of view on color, as seen in Coast: a well-balanced mix of hues that brings rich texture to any space.

NEW COLOR

Lattice

LATTICE, Sorbet

With a twist. When we challenged our weaving mill to extrude yarns with a clear casing over a colored core, they ended up with unexpectedly bumpy strands. Our urge to experiment further was irresistible.

Weaving the bumpy yarn on a leno loom yielded another fortuitous accident: the bumps forced the straight warp yarns to wiggle. With its crystalline shimmer and dynamic lines, Lattice brings luminous texture to the table.

SORBET

NEW COLOR

Mini Basketweave

Refined and resilient. Mini Basketweave is our signature Basketweave in half time. Instead of four yarns over four, Mini Basketweave is two yarns over two, resulting in a quieter, less textural surface.

NEW COLOR

Ombre

OMBRÉ, Rainbow

True colors. In this especially textural weave, a unique rotation of our signature bi-color TerraStrand® yarns creates a subtle ombré effect in the warp. We developed the new full-spectrum version in collaboration with the Elton John AIDS Foundation. It is inspired by the rainbow of LGBTQ identities.

RAINBOW

OMBRÉ, Rainbow

WARP, Ocean

Optical allusions. The geometry, symmetry, and contrast of a checkboard pattern is playfully softened in Warp. Squares break free of the grid, stretching and bending to form rows of undulating organic lines in neutral tones.

NEW COLORS

Skinny Stripe Shag

SKINNY STRIPE SHAG, Ocean

The anywhere mat. Debuting in fresh color combinations for Spring/Summer 2025, Shag mats are made by tufting looped TerraStrand® yarns onto a primary backing and then binding them onto a base of sturdy vinyl. These richly textured, quick-drying mats are ideal for entryways, bathrooms, kitchens, mudrooms, patios, pool areas, and beyond. Resistant to fading, staining, mold, mildew, and chlorine, they thrive indoors or out, all year round.

NEW COLORS

Breton Stripe Shag

BRETON STRIPE SHAG, Coast

Lively lines. Inspired by the high-contrast uniform of naval mariners in northern France—a knit shirt that was first made chic by fashion designer Coco Chanel—Breton Stripe Shag mats reimagine seafaring lines through an inviting texture of tufted loops.
